

## Omakase

Omakase is a style of eating, and is founded on trust between the customer and the chef. There are two styles: omakase from both the kitchen and sushi bar, or omakase from the sushi bar only. In either case, you need only say to your server or to Hiro "Omakase please!" and it will be our honour to take care of your needs.

Hiro will select your dishes and the order in which they are served to create a traditional Japanese culinary experience. We regret that it is not possible for you to order individual dishes as part of the Omakase experience.

However, if omakase menu is too complicated, please order from an available prefix menu.
